We love great European bread! We love everything about it - the simple pleasure of kneading it by hand, the rich aroma of the Levain (natural yeast) the simple healthy ingredients (flour, water and salt), the sound of the crackling crusts as they are hand-peeled from our Italian hearthstone oven and the delight we've found in sharing this amazing bread with others. We gladly sample any bread.

# KNEADERS®

## BAKERY & CAFE

### *Kneaders Story*

Kneaders was created in the tradition of the old family owned European bakery. There the aroma of fresh breads greeted the neighborhood residents every morning, drawing them in for the warmth and comfort, as much as for the delicious baked goods. People visited their neighborhood bakeries often and were treated like guests of the family rather than customers. Today we welcome you to Kneaders and hope you will return often to indulge in our freshly baked breads, delicious sandwiches, homemade pastries, hearty soups and refreshing salads. We offer you that same old world atmosphere of freshness and comfort that is so difficult to find in our fast paced world and look forward to making you an honored guest of the Kneaders Bakery Family.
